Regulatory and Guidance Documents Reviewed.docx

At the end of the Performance Standards review meeting with the experts on 1/26/17, you had asked Sharon Bailey for the list of regulations/guidance that she had reviewed for the quality of life performance standards. As you see, she sent me the list back in February, but I have been of two minds whether to send it to you, because it is probably incomplete (as her message notes). I haven't had a chance to go back to it, so rather than delay any more, I have decided to send it with the caveat that it is only a starting point.

Alice

Attached is the list of regulatory documents that we reviewed.

This list is probably best thought of as a starting place and not an exhaustive list since I did not task people working on the document with preparing a complete list of all applicable regulations they reviewed - this is just what they gave me as part of their documents and I pulled together as I was going. However, it will be a starting spot for GSH.

Sharon L. Bailey, P.E.
